

Bukti Korespondensi The Burkholderia Biofilm as Target of The Treatment: A Mini Review

This screenshot shows the first email in the correspondence. It is an acknowledgment from The Open Microbiology Journal. The subject line is "Submission acknowledgement | BMS-TOMICROJ-2020-85". The sender is "The Open Microbiology Journal" and the recipient is "me, Ghazal". The email content includes a thank you message, a reference to the submission title "Burkholderia Biofilm as Target of The Treatment: A Review", and a note that the manuscript is being processed for peer review. It also mentions the journal's ethical guidelines and provides contact information for the Editor-in-Chief, Irina V. Kiseleva.

This screenshot shows the second email, which is a request for a manuscript revision. The subject line is "TOMICROJ Manuscript Revision Required | BMS-TOMICROJ-2020-85". The sender is "The Open Microbiology Journal" and the recipient is "me, Ghazal". The email content includes a thank you for the submission, a note that the manuscript has been reviewed by experts, and a request to revise the manuscript. It also provides specific feedback and comments on the manuscript's content and presentation.

This screenshot shows the final email in the correspondence, which is a thank you message. The subject line is "Thank you for completing the Revision | BMS-TOMICROJ-2020-85". The sender is "The Open Microbiology Journal" and the recipient is "me, Ghazal, tomicroj". The email content includes a thank you for submitting the revised manuscript, a note that the journal hopes to collaborate with the author in the future, and a sign-off from Ghazal Obaid, Manager (Publications) at Bentham Science Publishers. The email also includes a footer with the Bentham Manuscript Processing System logo and navigation buttons for Reply, Reply all, and Forward.

Gmail interface showing a follow-up email from **The Open Microbiology Journal** dated Thu, Feb 11, 2021, 6:38 PM. The subject is "URGENT". The email content includes:

Dear Dr. Gunardi,

The composed version of your article is available on the dashboard of [Online System](#). I shall be grateful if you could kindly carefully check the composed version for any potential errors, missing lines/paragraphs and errors in figures/diagrams etc.

A reprint order form will also be mailed to you shortly through which you can avail of various services that we offer.

The uploaded proofs have been prepared directly from the final manuscript provided by you. However, in the transformation process, certain errors may have occurred due to a difference in the softwares used for which the Composing Department is not liable. The PDF version may distort your original figures. Therefore kindly check them carefully. All figures will be reproduced directly from your supplied soft copies. The resolution of the figures will be exactly the same as supplied to us with the original manuscript (except chemical structures). All references must be complete and accurate (according to the IFA of the Journal The Open Microbiology Journal).

Moreover, as a part of the publication process, the manuscript has undergone copyediting for generally minor grammatical inconsistencies and specifically for some significant ambiguities (where necessary), to bring in clarity to the content. You are therefore requested to read the proofs thoroughly and send approval for all the corrections made in order to ensure that the original meaning of the content has not been altered in case of significant changes in the text.

Kindly return the corrected proofs of the manuscript or your acceptance of this draft within 48 hours. On receipt of your reply, the manuscript will be finalized for publication.

Author Reprints: Printed reprints of your article, with colour covers, can be ordered for a minimum of 25 or more copies. To order or to receive a price quote, please send us the completed Reprint Order Form (which will be sent to you soon) or contact us at reprints@berthamscience.net

Kindly acknowledge the receipt of this e-mail.

With best wishes,
Ghazal Obaid (Ms.)
