Dear Mr. Iwan Aang Soenandi,

Thank you for your revision, your article will go to the next process of content review, which will be done by 2 or 3 reviewers from Indonesia and/or International.

The content review would involve correspondence of our editor to the reviewer from Indonesia and/or international and this process is different to the format review process that only involves our internal staff.

It is really difficult to predict the duration of time that would take to get the result of content review due to other activities of our reviewers. Therefore, the duration of time of format review may not be the benchmark for content review.
