Editor's general note:

- Please follow the paper template strictly. Author name can use full name or abbreviated.
- Title with local location (for not well-known city) should include its country, as this is an international conference for international audience
- Please use sentence case for the title. Capitalize first letter, name, method, country only.
- Each figure and table must be numbered sequentially and must be mentioned at least once in the paragraph.
- The author is advised to use reference manager such as Mendeley, or please check the continuity numbering of the reference and the appearance of the reference in the bibliography.
- The table should use editable table format instead of non-editable figure. this will help in correcting table format.
- Table and figure should strictly follow the margin. No part of the table or figure may cross over the margin limits.
- Please ensure the figures can be read in the pdf file. provide high enough resolution for the figure, as good figure will encourage citation of your paper. The font size in the figure needs to be adjusted accordingly.

Reviewers' comment:

Reviewer #1:

- The authors should edit the Figure no 3: Picture of Compression Testing no need to be attached.
- Picture of flexural testing should be made more clearly and completed with technical drawing
